Dear Families

We are still very aware of how the current situation with Covid is affecting our school community. Children, their families, staff and governors are all being affected in very different ways.

We are proud of how well we know the children in our care. It enables teachers and support staff to spot changes in a child's behaviour that may indicate they are experiencing difficulty and we have many ways we can, and do, help.

However, we understand that there may be families who are experiencing acute difficulty that we are not aware of. It may be that you may have lost your job or have experienced a bereavement. You may be experiencing mental health problems or relationship problems. We understand and know that this may affect family life and your children.

If you are experiencing difficulties that we are not aware of, please do get in touch as we may well be able to help. If we are aware, we can keep an closer eye on your child and work with you to ensure their wellbeing. We can also put you in touch with agencies and charities that could help you.

If you would like to discuss a family matter that may be impacting on the wellbeing of your child please email or call the school office and make an appointment with a member of staff. We have a great deal of experience in many different family matters and are happy to help.

Best wishes

Steven Ginn
Head Teacher
